

sealmatic

Sealmatic 9th Annual Report

The last year brought significant success to Sealmatic and we are extremely pleased with our performance. Thanks to the commitment of our employees, we generated solid results in the year 2020 - 2021, we will continue this focus to ensure that we are well positioned for further growth and value creation and that the Sealmatic legacy extends and expands far into the future.

Turning to 2020 & 2021, like other companies in the industry and beyond, many businesses are impacted by the pandemic and the unprecedented decline in commodity prices. Sealmatic has withstood many challenges in the past and grown stronger as a result. We are confident that this time will be no different. We have an excellent business model, great customers, an outstanding workforce and a strong balance sheet. Until then, we will keep working hard to deliver on our value proposition, stay focused on safety and service quality and work diligently. We remain committed to preserving the long-term value of our company.

We have a team of very talented and hardworking colleagues; a note of appreciation from management goes a long way in inspiring employees.

We have perfect employees who inspire their superiors as much as their superiors inspire them. Thank you for bringing your positive attitude to work every day. Projects become easier to execute, changes become easier to implement and problems become easier to solve.

Our gratitude goes to everybody at Sealmatic. Thank you for taking time away from your home so that we could keep pace with our customer's goals and deadlines.

Congratulations are in order to each and every one of you for a job so well done! We've always known about your willingness to consistently go above and beyond simply completing a task.

We thank you for being hungry for challenges and excellence as much as for recognition and promotions. We thank you for being responsible employees who assume leadership when your superiors are not around.

We thank you for realizing that by taking ownership of every project, you have taken ownership of your own success.

We thank you for shouldering responsibility and putting the company's interests ahead of your own.

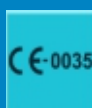

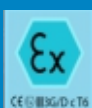

We thank you for treating the company's problems as your own. You have what it takes to be terrific future leaders.

We are thankful for having employees like you who never shirk responsibility even if it means taking blame when mistakes are made.

Thank you all, sincerely, for being true professionals, for being inspirational! You are a great team. This successful outcome is the result of all your hard work and dedication. And, lastly thank you for the pleasure and privilege of working with you!

Congratulations to us all, once again!
On behalf of the management of Sealmatic
Umar A K Balwa
