Sealmatic Announces Distribution Agreement With Errand Enterprises Pvt Ltd - Delhi

Delhi has a long history, and has been an important political centre of India as the capital of several empires. Delhi is a term that refers to either the State of Delhi or the National Capital Territory (NCT) of the Republic of India. In popular use, the term NCT includes several neighbouring areas in the adjoining states of Haryana and Uttar Pradesh. The name Delhi may originate from the Urdu/Hindustani word Dahleez (English: threshold, or frontier) or from the name of a Mauryan king, Raja Dhillu.

Sealmatic is pleased to announce that it has entered into a strategic agreement with Errand Enterprises Pvt Ltd - Delhi. Effective from September 1st, 2022, Errand Enterprises Pvt Ltd is appointed as Sealmatic's distributor for the Northern region of India for our range of mechanical seals. We are confident that our partnership with Errand Enterprises Pvt Ltd will provide our customers with an outstanding quality and exceptional customer service, achieving strong supply chain by consistently providing them with innovative Sealmatic high-end mechanical seals with the ability to maintain local stock for quicker deliveries.

Errand Enterprises Pvt Ltd is an innovative and customer centric company that offers customers a wide range of services and application know-how in the rotary equipment area. They have a team of well qualified personnel at their various locations in the Northern region of India. Spearheaded by **Mr Sanjiv Babyloni**, he has over 35 years of experience in managing business of engineering products across Oil & Gas, Power, Chemicals, Fertilizers, Paper & Pulp, Petrochemicals and other processing industry.

Sealmatic is amongst the largest manufacturers of mechanical seals and is synonymous with quality of products and business values with extensive experience in their field of expertise. Sealmatic has expanded its products offering in the Northern region of India with the establishment of its partnership with Errand in the heart of Northern India's industrial activity, and have established an engineering application support centre for mechanical seals to service customers in the oil and gas, petrochemical, power, water, desalination, chemical and other industries.

Building on the Errand partnership and its existing local pump servicing capabilities, this partnership of Sealmatic/Errand will provide maintenance and repair services for all types of mechanical seals, which will help customers in the region to optimize the performance and reliability of their rotary equipments.
