Sealmatic Partners With PSS Group In Thailand

Thailand has a rich and lengthy history. A unified Thai kingdom was established in the mid-14th century and Thailand is the only Southeast Asian country never to have been colonized by a European power. The world knows Bangkok as “Bangkok.” To Thai people, Bangkok is known as Krung Thep. Its real name is one of the longest names of a place in the world, made up of Pali and Sanskrit root words.

The PSS Group was established in the 1992 as a trading company of Durametallic by a young team of engineers having many years of experience in rotating equipment technology. PSS is the first company that established a mechanical service and repair facility in Thailand. PSS has contributed significantly over the past years to improve reliability, solve bad actors and reduce total cost of ownership for customers in Thailand. With sales and service operations in Bangkok, Rayong, Had Yai, Lampang, and Khon Kaen, PSS provides solutions to customers, improve reliability, and drive down their immediate and lifecycle cost.

Sealmatic/PSS have partnered for repair, refurbishment services and engineering applications support centre for mechanical seals in Thailand to services to customers in the oil and gas, petrochemical, power, water, desalination, chemical and other industries. Sealmatic has expanded its products offering in Thailand by joining hands with the PSS Group. Building on the PSS partnership and its existing local pump servicing capabilities, this specialist facility will provide maintenance and repair services for all types of mechanical seals. This latest partnership will help customers in the region to optimize the performance and reliability of their rotary equipment.

Sealmatic has witnessed success in supplying high performance mechanical seals to the oil and gas, power generation and water sectors. Following this achievement, Sealmatic has partnered with PSS who have existing purpose-built service centre to support customers with after-market services including reverse engineering, spare parts management, and maintenance contracts. In addition to the benefits available in the workshop, Sealmatic/PSS will also provide field services of experienced personnel to deliver on-site installation, fault finding and maintenance. The PSS service centre is equipped with state-of-the-art machinery, including lathes, milling machines, lapping machines, testing units etc.

“The next step will be to extend the benefits of the Sealmatic/PSS alliance to our customers in Thailand,” explains Umar A K Balwa, Managing Director of Sealmatic India Ltd. “Together, we are even faster and can precisely respond to our customers' needs 24/7, offering a high level of availability, 365 days a year. Classic, personal, local and global, digitally connected.”

Further to the above Karan Yamdagni (Executive Director) added by explaining the Sealmatic/PSS alliance's plans for the future: “We have joined forces to offer our customers a service package that can be tailored to all applications while at the same time progressively expanding our joint global service presence.” Top-quality service will be ensured through continuous training of technical personnel. The synchronized service portfolio. Concluded Mr. Yamdagni “that we are here to get a juicy slice of the USD 40 Million mechanical seals market in Thailand”.

The PSS Group is an international company focused on the core sector. Since its inception in 1992, PSS has grown into a diverse and successful multidisciplinary business, providing oilfield services and support operations to the process industry in the South East Asian Region.
