## Sealmatic: REACH And RoHS Certification By European Union Regulation

**REACH – TUV/C-005/2256/21-22**

**RoHS – TUV/C-006/2256/21-22, 2526/21-22**

**REACH** – Registration, Evaluation, Authorisation and Restriction of Chemicals, is a regulation of the European Union, adopted to improve the protection of human health and the environment, from the risks that can be posed by chemicals and at the same time enhancing the competitiveness of the EU chemicals industry.

**RoHS** - Restriction of Certain Hazardous Substances; it aims at the protection of human health and the environment through the avoidance of harmful substances in order to reduce the environmental effect and impact on health.

Sealmatic is pleased to announce that it has been successfully certified for REACH and RoHS certification by the European Union body, certifying that the mechanical seals manufactured by Sealmatic do not contain any hazardous substances or chemicals. Sealmatic is in compliant with the REACH & RoHS regulations and has identified and managed the risks linked to the unsafe substances.

REACH and RoHS establishes procedures for collecting and assessing information on the properties and hazards of substances. Based on test carried out in the lab, to the requirements of Regulation (EC) No. 1907/2006, TUV organization has reviewed the reports and thus confirms, that the report submitted for the inspection doesn't exceed the specified concentration of 0.1% w/w of substances as defined by EU REACH 1907/2006. Moreover, the materials inspected for RoHS by TUV organization, had reviewed and herewith certifies that Sealmatic meets the requirements as defined by RoHS-Directive 2011/65/EU.

As such we work within the framework of the REACH & RoHS directives, consequently we monitor the materials and processes continuously that go to manufacture our products and comply with any substance restrictions that are introduced via the above defined directives.
