Sealmatic rolls out vaccination drive for its 120 employees at Mumbai office

For companies, providing vaccine to employees and families is a way to minimise the impact of the pandemic on their workforce. Sealmatic has been advocating the need for them to get priority access to the vaccination. The vaccination drive is a proactive step in ensuring their safety and also that of their family members.

“Timely vaccination for everyone is our best chance to win this war against Covid-19. As India battles second wave of the pandemic, our first and foremost priority is to get all our employees vaccinated at the earliest. As part of our initiative, we are taking proactive measures and collaborating with leading hospitals to organise vaccination drives to ensure 100 per cent employee vaccination.”
